Safety Case Experience

Atkins works across all the main market sectors, recent examples of projects and clients include:

- **Generation**

- **Decommissioning**
  - Magnox South Bradwell – Low Level Waste Management Facility Design;
  - Magnox North Hunterston A – Wet ILW Retrieval & Encapsulation Project;
  - Magnox North Trawsfynydd – TSIF Safety Support Project, (see Articles and Publications page); and
  - Sellafield Limited Sellafield – First Generation Magnox Storage Pond Retrievals Project.

- **New Build**
  - GE Hitachi - ESBWR Generic Design Assessment (GDA) Support.

In summary, Atkins Nuclear’s broad skills base is able to provide safety support integrated with design and engineering, to provide project solutions to meet both client and regulatory expectations.
